

April 9, 2021

Hello SEMS Families,

Thank you for a smooth first week back from Spring Break. Students were well versed in using LumiSight and finding their way to class as they begin Quarter 4.

This week also saw **San Diego County move into the orange tier** where some COVID related restrictions were eased. Our students are continuing to adhere to social distancing, correct mask wearing, washing and sanitizing hands frequently. The state offered updated guidance on ceremonies and gatherings this week. With these updated guidelines, an in-person promotion looks like a reality, therefore initial planning and communication among stakeholders have started to take place. I will be meeting with middle school principals this week to discuss what promotion looks like district wide. Stay tuned for more details.

Interim Superintendent Dr. Tiffany Campbell, presented to the school board on March 22nd regarding plans for a 5 day a week return to campus for the 2021-22 school year. [2021-22 Return to School Plan](#). It is the SMUSD hope to return to school 5 days a week.

Attendance continues to be quite an undertaking. If you receive a call from the Attendance Office, please report your absence immediately or before the next school day. This will avoid your student being locked out of LumiSight.

Thank you, SEMS families, for a wonderful start to Quarter 4!

GOOOOOO EAGLES!!!!

Mr. Zeait
